Re: Goldwing Construction-Letter of Recommendation

To whom it may concern

Servus Credit Union has used the services of Goldwing Construction for recent branch interior renovation projects as well as exterior building repairs for our ongoing Signage Refresh project province wide.

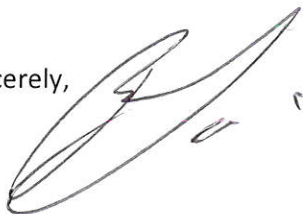

We have worked closely with Bernie Kiers and have found his collaborative, solution-based approach to our needs and budget to be outstanding. Bernie truly strives to do what is best for the customer while providing cost effective and Long-term solutions that enhance and improve our buildings.

We find the coordination, communication and attention to detail to be a foundation of what they do. They take great pride in what they do and treat every project like it's their own. They understand that their reputation of quality work, on time and on budget are what set them apart from other contractors.

They also employ some outstanding site superintendents. Stephen Bland who has worked on a few of our sites is a dedicated, pleasant and knowledgeable person who worked closely with our staff to ensure their needs were met and everything runs smoothly.

I would be happy to recommend Goldwing Construction to anyone looking to do work in their commercial buildings and I look forward to working with them on future projects as well.

Sincerely,

Brian Los

Senior Facility Manager
