- Exterior finishes upgrades.
- Miscellaneous interior renovations.

Challenges and Achievements

- Communication and coordination of multiple projects across Alberta presented some unique challenges. We were able to succeed with strong site supervisors and trusted sub trade relationships.

We have found Goldwing's Project Manager's collaborative, solutions-base approach to our needs and budget to be outstanding. They really strive to do what is best for the customer while providing cost effective long-term solutions that enhance and improve our buildings. We have found the coordination, communication, and attention to detail to be a foundation of what Goldwing does. They understand that their reputation of quality work, on time and on budget are what set them apart from other contractors. They also employ some outstanding Site Superintendents. Dedicated, pleasant and knowledgeable. Working closely with our staff to ensure their needs were met and everything runs smoothly.
