- Custom millwork.

## Challenges & Achievements

- Coordinate installation of high-end finishes.
- Safety coordination of managing subtrades on three separate floors.
- Coordinating building finishes with client finishes in shared spaces (i.e. elevator lobbies, hallways etc.).

*Goldwing's onsite team was knowledgeable, confident with the project scope and were great communicators. Getting a project successfully completed depends on picking the right people and trusting them. In this case, Goldwing Construction was there for us.*
