

Project Owner

Mike and Trenea Popowich

Project Location

West Edmonton

Time Frame

Start: August 2019

Completion: 6 Weeks

Project Value

\$160,000

Contract Type

Purchase Order

Project Summary

- Construction of a retail butcher shop.
- Includes smoke collection hood, office, grease trap, grease interceptor, water heaters.

Challenges and Achievements

- Project challenge was keeping odors from the butcher shop from penetrating neighboring space of commercial strip mall.

Our experience with Goldwing Construction and all of the trade partners was entirely positive.

We had a clear vision of what we wanted our butcher shop to look and feel like, and we couldn't have asked for a better contracting partner to help us get there.
