Zero Incidents

Project Summary

- Interior renovations: full demolition and reconstruction of the main floor office space including glass wall partition systems and open work areas.
- Board room upgrades included integration of new AV equipment.
- Second floor scope included open concept multi-functional work spaces, new finishes in the kitchen and painting throughout.
- Exterior upgrades of new custom fabricated metal cladding.
- HVAC System upgrades and new torched on membrane sloped roof.

Challenges and Achievements

- Challenges were to incorporate design and function around existing structural features.
- For the exterior scope Goldwing facilitated the design process.
- Removal of existing roof strawmatt insulation.

Goldwing Construction was excellent! The team was a pleasure to work with. The Project Manager organized and coordinated behind the scenes, keeping us informed only when required, making everything seem seamless and simple. The challenge we faced was maintaining the essence of the building while increase its practicality.

Goldwing constantly put us the client first.
