Okotoks, AB

Central Regional Office
Innisfail, AB

Goldwing Construction Inc. was the general contractor for renovations to the Alberta SPCA head office located at 17904 118 Avenue this past winter, 2020. In 2019, the Alberta SPCA identified the need for additional office and storage space for our growing staff. Goldwing Construction worked to identify, develop and cost out plans to convert a portion of our existing warehouse space in support of this need. Construction began in early January, 2020 and was completed within budget and on time.

Regular site discussions took place with Goldwing Construction Inc. and any concerns were promptly addressed by the onsite supervisor. The quality of the work performed was very good with any identified deficiencies quickly resolved to our satisfaction. Ensuring the work site was sectioned off to limit staff noise, dust and disruption was vital and Goldwing Construction Inc. staff were mindful and respectful of staff sensitivities.

It was our sincere pleasure to work with the Goldwing Construction Inc. team and special thanks goes to Patti Boyce for leading the project and ensuring it was successful. We would highly recommend Goldwing Construction Inc. for any future projects.
