**Re: Goldwing Construction Inc Letter of Recommendation**

To Whom it May Concern:

We are writing to recommend Goldwing Construction as a general contractor. We are a consulting firm who has recently purchased a building in West Edmonton that required upgrades and renovations. We were referred to Goldwing by the previous building owner, who happened to be a friend of the contractor, and were not sure what to expect. Goldwing Construction was excellent. The team, led by Patti Boyce, was a pleasure to work with. Patti organized and coordinated the work behind the scenes, keeping us informed only when required, making everything seem seamless and simple. Using the company's previous knowledge of the building, they were able to provide us with practical adjustments and application along the way, avoiding re-work, schedule delays, and verifying a high quality result. The challenge we faced was maintaining the essence of the building while increasing its practicality and maintaining our budget. Goldwing not only met this challenge, but they allowed us to take our time with decisions, change our minds during construction and adjust things easily so that we were fully satisfied with our end result. Goldwing constantly put us, as the client, first. They set us up with contractors and allowed us to complete our transaction on our own (to accommodate budget), Patti made herself available to our comments and questions on evenings, weekends and even holidays, and the company president made the time to check on our work and satisfaction throughout the project. Goldwing's staff is friendly, professional, organized and very pleasant to work with. Our renovations were completed on time, and exceeded our expectations in results. We will be using them for any future work, and recommending them to our peers.

Sincerely,

Hala AbouRizk-Newstead, MSc., VMA
