Project Summary

- ISL was an exciting project to work on. The space featured many unique features and high-end finishes.
- Electrostatic painting of the existing steel stair handrail completed on site.
- New spaces included offices, boardroom, breakout spaces, kitchenette, and restrooms.

Personnel and Equipment Used

- M&E, plumbing, framing/drywall, flooring, painting.
- Custom millwork and woodwork.
- Electrostatic painting.
- Signage.

Challenges and Achievements

- We are very proud of the custom millwork and hand-crafted wood furniture built for the new space by the Goldwing carpenters.
