To Whom It May Concern:

I am writing to recommend the excellent work of Goldwing Construction, Commercial Interior Contractor. We are a unique group of compounding pharmacies centralizing our compounding services to one stand alone, state of the art 2400 sq foot facility.

This project proved very challenging to meet the new provincial governing guidelines for compounding facilities and Goldwing was accommodating, collaborative and instrumental throughout the course of construction. To meet the nuances and challenges of this type of project the Goldwing team worked closely with our designer, engineering and consultant to deliver and exceptional new facility.

The management team, project manager and onsite personnel demonstrate extraordinary commitment to a team approach, addressing any anticipated construction concerns in a timely and proactive manner. I found all the staff to be professional, organized and very pleasant to work with.

I am confident that Goldwing Construction will be an excellent leading member of any project and that they will endeavour to delivery the highest of standards. Please feel free to contact me with any questions or to further discuss my experience working with Goldwing Construction.

Regards,

Darrin Berlin,
Owner/President
Dispensaries Compounding Centre
